

Our Performance

We complete our Annual Return to the Charter annually to the Scottish Housing Regulator, which shows how we perform in line with the Scottish Social Housing Charter standards.

The Director, every year will complete a benchmarking exercise which looks at all of Scotland's RSL's ARC results and provides this to Management Committee. This is analysed by the Corporate Services and HR Manager who will produce an organisational action plan to work on areas where we have identified as being weaker against our comparators. Regular updates are provided to the Management Committee.

Every year, the Corporate Services and HR Manager will produce and publish an annual performance report which highlights our performance against previous years, and other RSLs.
